Topic: The practical impact of all types of exchange programs among Northeast Asian countries and new initiatives

Table of content

1. Definition
2. Problems & Solutions
   1. Language barrier
   2. Financial barrier
   3. Lack of interaction in online classes
   4. Credit transfer

Definition

What can we do to increase the number of exchange students among NEA countries?

Why necessary?

For what?

1. Language Barrier

- directly affects the life

- influences the relationship with our classmates

Solution for Language Barrier

For the government:

- Enhance the entire English-teaching system

Solution for Language Barrier

For the university:

- Increase the number of English courses in university

- Developing human resources

- Compulsory credits of language

Solution for Language Barrier

For the student:

Language school

Simultaneous Translation App

Language Buddy

Talk Group

Further Concern for Language Barrier

- Deficiency in Language learning

    - Take long time to cultivate

    - Not practical

    - Language school cannot be the good actor for learning

2. Financial Barriers

- Cost of living

- University`s credit cost

- Difficult finding part-time job

- Inadequate financial aids

Solution

1. Increase the chance of scholarship

What we already have

·Campus Asia Program

·Scholarship provided
 by each unv

·Educational Loan

What we need

· **The reward-oriented scholarship**

·**More chances in other universities**

Solution

2. Support mandatory costs

Solution

3. Internship work with Non-Governmental organizations

Solution

4. NEA foundation by non-governmental organization

Further Concerns

Who is the sponsor?

3. Lack of interaction in online courses

✖ Concentration

✖ Physical
Communication

✖ Experience Culture

Solution

Student Side

▪Share social media account

▪Hold a club activities (Club, movienight, SRT mid-event)

▪Online Buddy Program

Solution

Teacher Side

Separate students into small groups

Group report

Interaction course

Study group

Further Concern

Still, online communication has limitations….

Further Concern

Lack of interaction in online meetings

- Different from physical conversation

- Difficulty of smooth communication

    - Speech overlap

    - Time lag

    - Internet connection issues

- Misunderstanding with language barriers

4.Transfer of credits

Problems

Difficulty of transferring credits back to one's university

- Not all course credits can be transferred

- Direct impact to graduation and job hunting

- Make students hesitant or reluctant

⇒ Promotion of exchange program: **Easier credit transfer**

Current situation

Transferring credits is almost impossible.

Most credits are not accepted by their universities.

Among the partner universities,t students can transfer their credits easily.

Solution

Expand the exchange program in Northeast Asia

- Increase partnership universities in NEA

- Promote students to go to NEA countries or regions to study

Solution

Advantages: Attract more international students for exchange

- Skills and technology needed will improve

- Better access of participants from various universities

    - Not only academic

    - Embrace talents of individuals

- Enhance skills and knowledge within Northeast Asia

Solution

How to expand exchange program:

-   Expand partnership among universities across borders

    -   Currently limited: difficult to convert credits

Further Concern

Credits Transferring

- Differences in willingness to integrate credits with other

  universities

- Some universities offer courses only in their native tongue

- Difference in fields of the research that universities do
